Prebuilt Solutions

Integrations

Process Automation

Simplify and modernize your business processes, allowing teams to focus on high priority initiatives. Reduce manual repetition, accelerate approvals, and deliver results faster throughout your entire organization.

Integrations

Quickly integrate Laserfiche with your mission-critical enterprise applications with out-of-the-box integrations or iPaaS connectors, allowing Laserfiche to be the backbone for your enterprise content and data accuracy across hundreds of applications.

Intelligent Data Capture

Unlock valuable information with capture tools that process high volumes of content, extract data and automatically organize files. Save time and reduce errors by capturing and classifying your data to make your content searchable from one centralized, organized location.

Document and Records Management

Keep your enterprise data protected with innovative lifecycle management tools, including custom retention and storage capabilities. Improve collaboration and process management while maintaining access security at whatever level employees need.

Prebuilt Solutions

Prebuilt solution templates accelerate your process implementation without having to design a workflow from scratch. The Laserfiche Solution Marketplace is a publicly available library with hundreds of industry and department-specific templates, designed by fellow customers and Laserfiche experts, to help you get started today.

Trusted by Businesses that are Serious About Efficiency

Laserfiche Supports F&M Bank in Growing Assets From $7.6 to $11.7 Billion

"Within a matter of days, we were funding loans. The nimbleness of Laserfiche Forms and workflow, plus SQL allowed us to build out an application process for those PPP loans literally overnight. Laserfiche is a critical way in which we deliver to our auditors, to our community, to our employees and, most importantly, to our clients."

— **Morgan Wheeler, Business Intelligence Manager and Vice President, F&M Bank**

Coopesa Shortened Documentation Processing From Three Days to Under Two Hours

"Digitizing [our] processes allows us to avoid manual review of thousands of documents, and mitigated the risk of lost documents that previously had to be physically transferred between offices. We also have a full audit trail for all documents; everything is completely traceable. This digital experience puts us on par with the largest repair shops in the world."

— **Herbert Cabrera, IT Director, Coopesa**

Gartner Peer Insights™

Named a Customers' Choice for Content Services Platforms four years in a row.

FORRESTER®

Named a Strong Performer in The Forrester Wave™: Content Platforms, Q1 2023.

NUCLEUS RESEARCH

Named a Leader in the Nucleus Research Technology Value Matrix for Content Services and Collaboration.

Gartner, Voice of the Customer for Content Services Platforms, Peer Contributors, 28 June 2023
